

How do settlements change?

Key words

Farming agriculture caravan craft homes car parks grown live holiday tourists housing Farmers in the tourist industry.

Settlements change in terms of their shape, function, land use and the type of people who live in them over time.

Firstly, the land use of the village has changed. For example in 1980 the land was used for _____ and _____.

By 2010 it was used for other things as well such as _____ and a _____ park. This shows the area has become more popular with _____.

Secondly, the shape has changed. For example the village has _____ in size. This is because by 2010 a lot more _____ have been built.

These have been built because _____

Thirdly, the function has changed. For example in 1980 the main function of the settlement was a place to _____.

Evidence can be seen of this from _____

Then by 2010 the function had changed to a place to live as well as a place for tourists.

Evidence of this can be seen from the _____ homes and the _____ museum,

Lastly, the people who live in the settlement would have changed. For in 1980 the people who lived there probably would have been _____. By 2010 the people are more likely to be _____.

This is because _____
