

- Why do you think 'unsinkable' is in inverted commas?
it's what people said about it – not fact
- What is the purpose of the first paragraph in this information text?
introduce the key points and engage the reader
- How much did The Titanic cost to build?
 - 7.5 million dollars
- How many funnels did the Titanic have?
 - 3, the fourth was for show
- How long did the Titanic measure in metres?
269
- How much would a first-class ticket cost in 2016?
£50,000
- Name three things you could do while aboard The Titanic:
gym, bathe, restaurants
- How many crew members survived?
212
- How long should it have taken to get to New York?
7 days
- What was the maximum speed of The Titanic (in knots):
 - 23 knots
- How many compartments flooded?
five
- How many people could lifeboats carry?
64
- When was The Titanic rediscovered?
1986
- Why is "that were then used incorrectly" in brackets in the final paragraph?
parenthesis – to add extra info
- Why do you think the information text ends on 'What remains of The Titanic?'
chronological, to tell you what's happening with it nowadays and to bring the reader into the present
- Give two ways The Captain could have avoided a crash:
listened to warnings, not slowed down, used all the lifeboats and filled them up
- Define the word **compounded**
added to
- Define the word **voyage**
 - a journey
- Explain why The Titanic sank
 - Various: not listened to warnings, sailed too close to icebergs, lifeboats were too few in number, lifeboats not boarded properly.
